Larry Griffin  
Executive Vice President  
J. L. Malone & Associates, Inc.  
Post Office Box 3367  
Albany, Georgia 31706-3367

Dear Mr. Griffin:

As you are aware we have recently completed the electric phase of a utility relocation project here in our city. I would like to take this opportunity to tell you what a pleasure it has been working with the men in your organization. Our engineers poorly designed this project, in my opinion. With the help of Howard Jones and Keith Strickland we were able to basically redesign this project and build it in a way that best suited the City of Chattahoochee and myself. Without the knowledge and experience of Howard Jones, we would have had to struggle long and hard to complete this task.

The men I worked with from your organization know how to work hard and work with others to accomplish a task no matter how difficult. I think this is something you should be proud of.

For materials, truck time, and labor on this project, J. L. Malone & Associates, Inc. owes the City of Chattahoochee absolutely nothing. All I can give your organization is a big thank you for the help, friendship, and cooperation you have given us. In the future your company will be highly recommended for any future projects with the city, or to anyone who asks our recommendation of a line contractor.

Sincerely,

Mike Linder  
Electric Distribution Foreman  
City of Chattahoochee
